

8011 Aluminum Foil

8011 Aluminum Foil Jumbo Roll Description:

8011 aluminum foil is mainly added with Fe, Si and other elements. The 8011 aluminum foil produced by Mingtai has a clean surface, uniform color, no spots and holes, and can be customized according to customer needs.

Because of its excellent moisture-proof performance, light-shielding performance, and high blocking ability, it is often used as food packaging foil and pharmaceutical aluminum foil. And because of its strong mechanical properties, it can be used as a bottle cap material.

Strength of Mingtai Aluminum Production 8011 Aluminum Foil

1. Mingtai Aluminum can customize processing according to customer needs;
2. Mingtai has a strong production capacity, with an annual production capacity of 800,000 tons of aluminum sheet, strip and foil, and long-term supply for many domestic and foreign enterprises;
3. Some products are in stock and will be shipped immediately after placing an order.
4. Monthly output can be up to 6600 tons.
