

Pharmaceutical Foil

Pharmaceutical Foil Description:

Medicines are packaged in various forms such as liquids, injections, tablets, and granules, and most of these packages use aluminum foil.

PTP pharmaceutical aluminum foil alloy: 8011-H18 aluminum foil, 8011-O aluminum foil, etc., with a thickness of 0.016-0.04mm;

Aluminum foil alloys for tropical blister packaging: 8021-O aluminum foil, 8079-O aluminum foil, thickness 0.04-0.075mm;

Blister medical aluminum foil: Blister aluminum foil is also called cold forming pharmaceutical foil, mostly made of 8021-O aluminum foil, used for high-end and highly airtight, moisture-proof and light-shielding pharmaceutical packaging, with a thickness of 0.04-0.065mm;

Tropical aluminum foil for medicine: Tropical aluminum foil, also known as aluminum-plastic aluminum, tropical blister packaging is equivalent to adding a layer of cold stamped aluminum foil cover on the outside of thermoformed plastic blister and PTP aluminum foil. 8021-O aluminum foil and 8079-O aluminum foil are mostly used;

Aluminum foil for medicine bottle caps: Aluminum foil for medicine bottle caps is also called aluminum foil for medical cover materials. It is mostly made of 8011-H14 aluminum foil or 8011-H16 aluminum foil.

Strength of Mingtai Aluminum Production 1070 Aluminum Foil

1. Higher requirements are put forward for the quality indicators of pharmaceutical foil, including the content of toxic and harmful elements, plate shape, thickness, surface quality (including color difference, stripes, bright lines, bright spots, etc.), pinholes, heat resistance, heat sealing strength;
2. The raw materials of our factory must be sampled and inspected before entering the factory, and can only be used after passing the inspection. Control the quality of products from the source.
3. Our factory uses Electro-mechanical Universal Testing Machines, Quantometer Laboratory, Kinematic viscosimeter and other instruments and equipment;

4. Monthly output can be up to 3000 tons.

Technical Parameter of Mingtai Al. Pharmaceutical Foil

Alloy	8011,8021,8079
Temper	O,H14,H16,H18
Thickness (mm)	0.016-0.2
Width (mm)	100-1700
Length (mm)	c

Countries we have exported our products to:

Pharmaceutical Foil Exporters:				
Vietnam	Italy	India	Spain	Sri Lanka
South Korea	Belgium	Morocco	Algeria	France
Jordan	Egypt	Brazil	UAE	Pakistan
Nepal	Indonesia	Uganda	Russia	South Africa
Netherlands	Israel	Bangladesh	Turkey	Singapore

Aluminum products Packaging Details of Mingtai Aluminum

- 1) Standard seaworthy export packaging. Wooden pallets with plastics protection for the coil and sheet.
- 2) The packaging can be eye to sky or eye to wall based on the customer's requirement
- 3) 16-20 MT can be located into 20FCL, the sea freight rate is much cheaper than 40FCL.
