

2017 Aluminum Sheet

2017 Aluminum Sheet Supplier-Henan Mingtai Aluminum

Aluminum 2017 is a heat treatable wrought alloy that offers decent strength, ductility, and good machinability. Aluminum 2017 offers more strength than Aluminum 2011, and has fair workability and corrosion resistance.

As with many aluminum alloys, Aluminum 2017 should not be welded as it reduces the alloy's corrosion resistance.

Strength of Mingtai Aluminum Production 2017 Aluminum Sheet

1. It has 6 semi-continuous casting production lines, 10 continuous casting and rolling production lines, and 44 other large-scale processing equipment.
2. The product specifications are complete, and can be customized on demand, and the delivery time is 25-30 days.
3. High strength, certain heat resistance, can be used as working parts below 150°C; when the temperature is higher than 125°C, the strength of 2017 aluminum plate is higher than that of 7075 alloy;
4. Our quality assurance department incorporates technical expertise, knowledge of industrial standards and the latest testing equipment and devices to meet all requirements in order to ensure that the supply made to our clients meets exact specifications.

Technical Parameter of Mingtai 2017 Aluminum Sheet

Alloy	2017
Temper	F、O、T3、T4、T6、T73、T351、H112
Thickness (mm)	0.1-500
Width (mm)	500-2650
Length (mm)	500-16000

Countries we have exported our products to:

Aluminium 2017 Sheet Exporters:				
Mexico	Canada	Venezuela	United Kingdom	Australia
Saudi Arabia	Oman	Kuwait	Netherlands	Saudi Arabia
France	Italy	South Korea	Poland	Belgium

Aluminum products of Mingtai 2017 Aluminum meet the export popular

2024 aluminum sheet of packaging meet the export standard. Plastic film and brown paper interlea can be covered at customers' need. wooden case or wooden pallet is adopted to protect products from damage during the delivery.
