

Aluminum Sheet for Battery Case

Aluminum Sheet for Battery Case product description

Battery shell material refers to high-purity aluminum alloy products formed through processes such as hot rolling, cold rolling, annealing, stretch bending straightening, and aluminum foil rolling. The production process is carried out in strict accordance with the standards stipulated by the industry. At present, the company has passed the "ISO9001: 2008" quality management system certification, and has established a strict quality standard system to ensure excellent product performance.

The main products of aluminum plates for battery cases are 3xxx series aluminum alloy plates, which are used in mobile phone battery case body end covers, battery industry and other fields. Mingtai Aluminum strictly controls the production process and provides standardized products with low production rate and excellent performance. It is a supplier of Samsung, LG and other international companies.

Strength and Advantages of Mingtai Aluminum Production Aluminum Sheet for Battery Case

1. Control the production process and provide standardized products
2. The product has low ear rate and excellent performance
3. With a high reputation, it is a supplier of international companies such as Samsung and LG.
4. By introducing advanced equipment, mastering the core technology of aluminum plate production, and strictly controlling the production process, the 3003 aluminum plate produced is of high quality and low price.

The product thickness of the battery shell material is 0.40-0.60mm, which has the advantages of low ear making rate, good deep drawing performance and welding performance. A small amount of manganese is added to the alloy, so that the product has high strength, corrosion resistance, high temperature resistance, radiation resistance and fast heat dissipation, which fully meets the standards required by the end materials of mobile phone battery shells.

In the field of mobile phone battery shell materials, the company has long-term cooperation with many international companies.

Mingtai Aluminum has a professional R & D and production team, product quality is guaranteed, complete specifications, can be customized on demand, perfect after-sales service system, rigorous and scientific management, fast production scheduling, timely delivery, product quality is guaranteed, want to know more For more detailed product information and preferential quotations, click on the right side for online consultation, professional sales staff will answer your doubts in detail online!

Technical Parameter of Mingtai Aluminum Sheet for Battery Case

Alloy	3003,3005
Temper	H14,H16,H18
Thickness (mm)	0.4-6
Width (mm)	200-2600
Length (mm)	c

Countries we have exported our products to:

Aluminum Sheet for Battery Case Exporters:				
Saudi Arabia	Oman	Kuwait	Netherlands	Pakistan

Bahrain	Qatar	UAE	Africa	China
Nigeria	Mexico	Canada	Venezuela	United Kingdom
United States	South Africa	Malaysia	Bangladesh	Turkey
Singapore	Sri Lanka	Australia	Brazil	Germany
France	Italy	South Korea	Poland	Belgium

Aluminum products of Mingtai Aluminum Sheet for Battery Caset the export popular

Plastic movie and brown paper can be protected at customers' need. Also timber case or timber pallet is adopted to shield products from harm for the duration of the delivery.

There are styles of packaging, which is eye to wall or eye to sky. Customers can choose either of them for their convenience.
